BLUE-CON SUBSEA LIMITED is a 100% indigenous diving company with its operational base in Port Harcourt, Rivers State.

The company was formed in 2004 under the name, Blue-Con Oil and Gas Ltd, but had its name changed in 2005 to Blue-Con Subsea Ltd. in order to fit the original vision and purpose which are carrying out Underwater Non Destructive Testing (NDT), Survey of Vessels and Inspection of Offshore Drilling Rigs and Platforms for classification societies such as American Bureau of Shipping (ABS), Bureau Veritas (BV), DNV and Lloyds Register.

Blue-Con Subsea Ltd, since her inception has been involved in all types of Offshore and Inshore Diving Services, Diving construction and Maintenance. These diving operations are carried out in accordance with HSE/IMCA regulation standards involving very experienced and tested personnel (Commercial Divers) both national and international. Our supervisors are all IMCA certified and also have a track record of safe diving supervision in line with the company's safety requirements for diving in particular and all our operations in general.

Some of our areas of specialization include salvage, sub sea inspection, underwater NDT, sub sea pipe and cable laying, underwater cutting, burning and welding etc.

We are making innovations on better ways of serving our clients while maintaining our track record of safety in all our operations through the combination of focused vision and commitment to quality policy.
